of A.S.R.T. – Association for Scientific Research of Time Travel. Domicile of the association is Wiener Strasse 134, D-01219 Dresden, Germany.

Ambition of the (unlisted in register of associations) society is the scientific research of possibilities of time travel. The aim is to offer evidence that time travel is possible either from presence, future or past. As cast iron proof will only be regarded construction or supply of an object or procedure by means of which a human being will be able to move himself into the flux time vectors "future" or "past. Argumentum e contrario the objective will be achieved if proof undoubtedly shows that time travel is impossible under no circumstances.

The association consists of the original members Uwe Aloé, Walter Gith and Bernd Siebler. Additional members can only be accepted by unanimous decision. Exclusion of members is only possible unanimously as well, unless a member has proved to be blameworthy towards the association – which needs to be confirmed by a neutral arbitral tribunal. For all other decisions a simple majority of the members is applicable.

The members act unsalaried. Any allowance for material or non-material expense may be determined in case of an excess at the end of a financial year.

The association awards free of charge licences for the participation in an experiment explained in detail of the association owned website www.timemachine1212.com . Manufacturing and electronic mailing of the licences will be advanced by the initiators resp. covered by potential donations.

Acquirers who prefer a personal participant code and the postal forwarding of the relative document should cover the charges for printing, laminating and mailing of the licences at cost price of 40 €.

The future manufacture, printing and forwarding of the temponaut instructions will lead to a flat charge of 45 €.

All charges for the establishing of licences and instructions will be privately advanced by the members of association and potentially reimbursed after termination of the experiment on 12/12/2012 from the accumulated payments collected at PayPal account (74C24WL68L8ZY), resp. Volksbank Wilferdingen (17795708).

For personal participation at the event of 12/12/2012 the association will offer entrance tickets at cost price for housing and lodging.

In case there would be an excess resulting of the activities of the association such surplus may cover the temponaut success award of 90,000 € advanced by the initiators.

The association reserves the long term right to transform itself into a charitable foundation acting in the meaning of the goals of the association.
